Three to five inches of rain fell over Owatonna, resulting in flooding of roads, homes and businesses. A city storm sewer also backed up, causing basements to flood in about 40 homes. This event ended October 1, 2007 at 0300 CST (see October 2007 Storm Data). Damage totals are listed in October 2007 Storm Data.

A north to south oriented cold front moved across Minnesota, connecting to low pressure that tracked across Iowa. Moist southerly flow resulted in thunderstorms across portions of southern Minnesota.
